Annie the Puppet

By: Linda White

**I brought my new puppet friend to Sunday School...
she made us all smile.**

**I wasn't worried that she wouldn't be accepted...
you see she is blue. The children didn't even notice.**

**Jesus said we all must become like little children, of such is
the Kingdom of Heaven. Annie the puppet will teach us all a
lot of good lessons.**

**The kids did squeal on her when she was talking during closing
prayer, and I think she was flirting with the cute guys. She
will learn how to behave in class... we are all a work in
progress.**

It was a good day!!!
